the show by Dizzy Man's Band
I think that this is not progressive
but tell me what the people like
sometimes it sounds me like a classic
it's stolen but that's what yoy like
I like the show, I like the show
that you don't know anything
about the music that you hear.

The show, the show
d'you just like the show
the glittering, the number one
the one who stole the show
The show, the show
d'you just like the show
the glittering, the number one
the one who stole the show.

I think it better sounds commercial
'cause that is what the big folks want
it didn't took a lot of rehearsal
I hope this record blows the charts
I like the show, I like the show
that you don't know anything
about the music that you hear ?

Feel it in the air
taste it on my lips
sunny times are coming
Summerland is near
have communication
come along with me
have a celebration
for funny times are here.

(c) Tekst & Muziek : J. Kloes / H. Smak
