I hear that you're concerned about hearing me
I understand your problem
If you see candles burn from the middle
Me, I don't know how to stop them

Oh yes, we catch a fire
Kick the room around
We like to keep it poppin'

And if we get inspired
Rapped up in the sound
Might come some truth a knockin'

Everybody got some kind of story
Ain't nobody near enough worried

The story goin' 'round
Through the welfare line
Is that nobody matters
What it is goin' down, easily defined

Fat cats are getting fatter
It's hard to be concerned
With what you cannot see
I don't think they see the problem
When everybody's heard of this agony
There's people goin' hungry right now

Everybody got some kind of story
Yeah, nobody near enough worried

So honey spread the word, get visibility
This is the people talkin'
Get with this real life, your validity
Don't need no weapon today

This can't be all there is
To the twilight's last gleaming
I just don't think we'll have it

Willful unconsciousness
Plain and simple, me, me, me

I think we better fix it right now

Everybody, got some kind of story
Ain't nobody near enough worried
