Memorise

Yeah

I might know somethings that,might not make sense to
you right now

But hey it might just have bein rumours

Who started that shit

What's yea talking about

Cause it aint true

You got me

Sara,back in 7th grade

When i was telling everywon that you were such a babe

But won day my dream finally came true

When i ask yea out

Two days l8er it was a yes

Two minuts after i said that girls the best

Kayla was crying bout uss

I said its finish between uss

You were such a good girl, But shy

Its ok cause you were my angel, so u can fly

We werent talking that much

We werent touching that much

But i loved you soo much

That i could of hug you for a bunch

About three or for months,You thaught i cheated with
those cunts

And i didnt finger that chick

I just Hade a coupl drinks

You didnt believe me

Then you broked up with me

Then that broked my heart,Cause i loved u all my heart

Now hush little cuty,I love you now

Im just saying how i love you now

Stiffen that uper lip up little cuty

I told yea stephy's here to hold yea
throught the night

Here i am loving you right now, And i dont no why

We feel how we feel inside

It may seem prety crazy pretty cuty

But i promise

Im gona hold yea day or night

Its funy
I remember after we broked up
When i knew you still liked me
And somme chicks was telling you should stuck up
But i said shes fucked up
But i loved you all my heart
So bomb 2 days
Before yea birth day
I ask yea out
This time the responce wasent think about
It was a yes
I said that gurl is the hottest
So then we were going out
A coupl times i was gona flip out
Cause you were such a flirt
Its a good thing you didnt have a skirt
Cause you wouldnt be a virgin today
But i toked it easy
I said i love you sweetay

Now hush little cuty,I love you now
Im just saying how i love you now
Stiffen that upper lip up lil cuty
I told yea stphy's here to hold yea
throught the night
Here i am loving yea right now,And i dont no why
We feel how we fell inside
It may seem lil crazy pretty cuty
But i promise
Im gona hold yea day or night

Listen
On february 16th
I went to Nickel Back's concert
Do was a flirt
You heard at the tournament
That i frenched do
It was all bullshit
Cause its a bullshiter that told's yo
I wont say her name
But why didnt you stay in yea own biswacks
Martine that's her name
So go eat yea own fucking snacks
All cause of you
That was a strike two
And that was all cause of you
At my Birth Day i ask yea out
You said, Yes
It was a flat out
I said that gurl is adorest

Now hush lil cuty, I love you now
Im just saying how i love you now
Stiffen that upper lip up little cuty
I told yea stephy's here to hold yea
Thraught the night
Here i am loving yea right now,And i dont no why
We feel how we feel inside
It may seem lil crazy pretty cuty
But i promise
Im gona hold yea day or night

Here we go again
Were going out again
But now we were talking a little
And touching a little
And seeing eachother a little more
I was all happy to get yea back
Remember at France's house
That parade day
I deside to talk a walk at the bay
I smoked cause i was soo fucking stressed out
Cause nothing was comming out
Of yea fucking mouth
But like always i loved you so i didnt say fuck all
But at the end of the night i wanted uss to be over
But i loved you soo much,You were the only thing in my
heart
And you loved me soo much that i felt bad
And i loved you soo much so i said fuck that
But like always one fucking week later
I hade a call saying that it was over
I fucking freak'd out
'cause you left me all out
But one or two weeks after
Here we go again
Back together
I think i fucked up again ???

Now hush little cuty,I love you now
Im just saying how i love you now
Stiffen that upper lip up little cuty
I told yea stephy's here to hold yea
Thraught the night
Here i am loving yea right now,And i dont no why
We feel how we feel inside
It may seem crazy pretty cuty
But i promise
Im gona hold yea day or night

Ok this is the last time

That i ask yea out
But i shouldnt cause i just waist my time
Nothing was comming out of yea fucking mouth
I started to call you
I was asking you question
It was always a No, Yes or You
You never ask my opinion
I started to realize that u hade something rong
Cause u started to be moody
And you started to be a flirt
And you were acting all hoty
Then we broked up
You fucking clirk
You told me right on the phone
I asked you if yea liked somewon els
You said no,no,no
I said Bullshit,I know you like somewon els
There it goes again no,no,no

Throught the night

It may seem crazy little fucking bitch
