I was so pre-occupied  
Couldn't see what was right before my eyes  
A love that's meant to last

In dissaray my life was back to front  
I turned it round and decided what I want  
Is for a love to last

Last , seems that I always put you last  
But now I realise at last  
There's gonna be a change  
(A Time to change)

My commitment is to you and me  
Now I know what my poor heart really needs  
A love that's meant to last  
My emotions have been carressed  
So let me put in one sincere request  
For a love to last

Last, seems that I always put you last  
But now I realise at last  
There's gonna be a change

I was so pre-occupied  
Couldn't see what was right before my eyes  
A love that's meant to last

All I want  
Is for a love to last

(Unsurpassed - A love to last)

(The future's cast - A love to last)
