Baby, I'm in love  
Don't hold me back, don't stop me now  
Baby, I'm in love  
Can't hold me back, don't stop me now

Baby, I'm in love  
Can't hold me back, no way, no how  
Baby, I'm in love  
Don't stop me now, can't hold me back

And when I'm with you, baby  
I'm never gonna give it up  
Just me and you, baby  
Our love is enough, is enough

Baby, don't dance, baby, don't sing  
Baby, don't have to do anything  
'Cause my baby's got something that does it for me  
This is love that we got and I like it, I like it

Baby, don't groove, baby, don't swing  
Baby, don't have to prove anything  
'Cause my baby's so real, it's the way I feel  
This is love and I like it

It makes my heart go boom, bang, boom, boom  
It makes my heart go boom, baby, boom, boom

Baby, I'm in love  
And I'm feeling high and it feels so right  
Baby, I'm in love  
Can't hold me back, don't stop me now

And when I'm with you, baby  
I'm never gonna give it up  
Just me and you, baby  
Our love is enough, is enough

Baby, don't dance, baby, don't sing  
Baby, don't have to do anything  
'Cause my baby's got something that does it for me  
This is love that we got and I like it, I like it

Baby, don't groove, baby, don't swing  
Baby, don't have to prove anything  
'Cause my baby's so real it's the way I feel  
This is love and I like it

It makes my heart go boom, bang, boom, boom  
It makes my heart go boom, bang, boom, boom

And when I'm with you, baby  
I'm never gonna give it up  
Just me and you, baby  
Our love is enough, is enough

Baby, don't dance, baby, don't sing  
Baby, don't have to do anything  
'Cause my baby's got something that does it for me  
This is love that we got and I like it, I like it

Baby, don't groove, baby, don't swing  
Baby don't have to prove anything  
'Cause my baby's so real it's the way I feel  
This is love and I like it, baby
