I know I hurt you baby and I'm sorry
But I'm back now so don't you worry
Darling what can I say I couldn't keep myself away
I think it's time we got back together
'cos we'd only be lonely forever
Darling we've gotta try ain't no good in goodbye

Oh oh oh time will answer all our questions
All I need is your affection

Wherever I go
Whatever I do
Everything reminds me of you
Wherever I go
Whatever I do
Love keeps bringing me back to you

The things we said - well I guess we didn't mean them

Now I've had time I understand your reasons
Darling you won't regret believe me I won't forget
'cos this time our love will be much sweeter
And I promise to look a little deeper
Darling what's done is done our best is yet to come

Oh oh oh time will answer all our questions
All I need is your affection

Wherever I go
Whatever I do
Everything reminds me of you
Wherever I go
Whatever I do
Love keeps bringing me back to you
