

Steps "Close To Me"

Spot you down somewhere in the city
In the night
Right side, bodies over-heated
Set it alive

Now that the heat is rising
Feels so tantalizing
What it is you do
You've got it going on
You turn me on

Baby, baby
Move close to me
Take anything you want from me

Baby, baby
Just slide up close
We've got it going on
Ah na na na na na...

Right now
Can't you feel the rhythm?
Lose control
Can't wait
Into a new beginning
Free your soul
(Oh free my soul)

Now that the heat is rising
Feels so tantalizing
What it is you do
You've got it going on
You turn me on

Baby, baby
Move close to me
Take anything you want from me

Baby, baby
Just slide up close
We've got it going on
Ah na na na na na...

Baby, baby
Just slide up close
We've got it going on
Ah na na na na na...

Baby, baby
Move close to me
Take anything you want from me

Baby, baby
Just slide up close
We've got it going on
Ah na na na na na...

Baby, baby
Move close to me
Take anything you want from me

Baby, baby
Just slide up close
We've got it going on
Ah na na na na na...

Baby, baby
Move close to me
Take anything you want from me

Baby, baby
Just slide up close
We've got it going on
Ah na na na na na...
