Mars and venus
Just like mars and venus
You stop and I go
Too fast, much too slow
You're uptown is downtown to me
I lose it, you find it
You're ahead and I'm behind it
You're daytime is nighttime to me

Feels like a million miles between us
Just like mars and venus
Must be the pull of gravity
I'm made for you you're made for me

{chorus}
Sometimes I drive you crazy
Sometimes you want to change me
I say you don't you say I do
That's how it plays with me and you
When we can't seem to make up
When we're about to break up
I look at you, you smile at me and then
We fall in love again
(just like mars and venus) (just like mars and venus)

You get what I don't
And you will when I just won't
You're upside is downside to me
I flip it, you drop it
You start me up and I can't stop it
You're on time is off time to me

Feels like a million miles between us
Just like mars and venus
Must be the pull of gravity
I'm made for you you're made for me

{chorus}
Sometimes I drive you crazy
Sometimes you want to change me
I say you don't you say I do
That's how it plays with me and you

When we can't seem to make up
When we're about to break up
I look at you, you smile at me and then
We fall in love again
(just like mars and venus) (just like mars and venus)

For every action, baby, there's reaction
Must be opppsite attraction
No matter what you're my ultimate distraction
And I know it gives you satisfaction
I was made for you and you were made for me

{chorus}
Sometimes I drive you crazy
Sometimes you want to change me
I say you don't you say I do
That's how it plays with me and you
When we can't seem to make up
When we're about to break up
I look at you, you smile at me and then
We fall in love again
(just like mars and venus) (just like mars and venus)

We fall in love again
(just like mars and venus)
You smile at me and then
We fall in love again
(just like mars and venus)
Again and again and again
(just like mars and venus)
We fall in love again
