Get over
Get over
Get over

Boy, you should've have known it from the start
You'd go and break my heart
But I was hoping, praying
You, you always thought you were right
But you couldn't see the light

The truth was shining
For all the world to see
You made a fool of me
Why did you have to leave

It started again
That feeling inside me is burning
When you're not around me I'm hurting
And I'll never ever

Start it again
This time I'm learning my lesson
Just when I thought I'd found Heaven
Now I know that I'll never get over you

Get over
Get over
Get over

I guess I knew it all long
Hoping that I was wrong
I should've been strong moved on
Into a world a world without you
You split my heart in two

You will be sorry
You've blown it all away
You made a fool out of me
Why did you have to leave

It started again
That feeling inside me is burning

When you're not around me I'm hurting
And I'll never ever

Start it again
This time I'm learning my lesson
Just when I thought I'd found Heaven
Now I know that I'll never get over you

You took my soul
(You took my soul)
You left me cold
(Ever so cold)
But now I know someday, I will get over you

Get over
Get over
Get over

It started again
That feeling inside me is burning
When you're not around me I'm hurting
And I'll never ever

Start it again
This time I'm learning my lesson
Just when I thought I'd found Heaven
Now I know that I'll never get over you

It started again
That feeling inside me is burning
When you're not around me I'm hurting
And I'll never ever

Start it again
This time I'm learning my lesson
Just when I thought I'd found Heaven
Now I know that I'll never get over you
