[Lil' Kim]

.. My Aunt Dot

left a glock and some blood on my sheets

Told me clean the shit up, then she hit the streets

Even though I'm her niece, she copped me a piece

Wack-ass caliber, nickel-plated with the silencer

What? She don't know I like my guns pretty?

Like my boy Castor Troy with the twin-glizzies

I heard a knock at the door { *knock knock knock knock
knock* }

To my surprise I saw these two familiar eyes

Who are you?

[Lil' Shanice]

Whattup? I'm Shanice, don't remember me?

[Lil' Kim]

She called me by my government name, Kimberly

Who sent you?

[Lil' Shanice]

My mom sent me; her name is Dottie

She packed a note in my knapsack along with a shottie

[Lil' Kim]

Hmmph, she was cute; and mad fly

She had the Prada knapsack, with the hat to match

Bavari hiking boots, with the mink bubblegoose

and I could see she was admiring my Minski suit

Then she handed me the note

[Lil' Shanice]

Here - read this

[Lil' Kim]

I just stared her up and down

cause I couldn't believe this - then I opened it

It said, "Bitches is out to get you;

your so-called friends, put a bomb in your Benz.

I'm on a mission now to do some harm to your friends.

They know where you live, so evacuate the crib.

And oh, the little girl, that's your cousin Shanice.
Since I can't be with her, I need you to babysit her.
Besides; she looks up to you - you're her idol -
and tomorrow is her first violin recital,
and she would be more than happy if you could take
her.

Peace, my number's on the back of the paper, hit me
later."

Damn.. what went wrong?

Can't we all just get along, and make hit songs?

Bitches all up in my ass like a thong

If this was a show, y'all hoes would get "gonged"

Cause if it's on, then it's on, bring it on

What the fuck you waitin for? C'mon, let's get it on

What? What's takin you so long? I got plans for the
future

to bring back your head like Medusa

Chorus: Lil' Kim (repeat 2X)

Girls be actin stink, and mad funny

Y'all bitches bleed like me, on the monthly

Can't stand the pain then pop a "Humphrey"

I know it hurts.. (I'm killin y'all)

[Lil' Kim]

Uhhh, we in the Range in this fucked up weather

It's snowin and I'm tryin to put the whole shit together

How Laverne, she always wanted to be like me

and dress like me, and look like me

and Nicole, it's like she lived in my house

Askin me for money, day in - day out

And last but not least the grimiest one Tayesha

She planned it all, come to find out her name is Keisha

C'mon Shanice I'm takin you to my house in L. Conn.

(I wanna go with you!) Uhh, be quiet, and we'll get
along fine

[Lil' Shanice]

C'mon please, I wanna be just like you

600 Mercedes, and 380's in my doll babies

Crazy baguettes in my barettes; and,

H-class rocks inside my Baby G Shock

Fuck Barney and Lambchops; I don't love them hoes!

But anything goes when it comes to bankrolls

Diamonds on my toes, X-and-O's

Versace hottie in designer clothes

Scoop Lil' Nique and Jus, then take 'em to Toys'R'Us

Make em spend they cheese then kick 'em out and take
the bus

I'm the S-the-H-the-A-the-N-the-I-the-C-the-E

but all my friends call me Miss Little Queen Bee
What what? I like the green, know what I mean?
Ever seen The Professional? (uh-huh) Well I can clean

[Lil' Kim]

You know what? I like you; little big person
but rule number one - no cursin
Anyway, what you know about that?
You too young for that, when I was your age
I woulda got hung for that
Then I picked up the phone, to call my Aunt Dot
so she could fill me in a little more about the plot
Hmm.. nine-one-seven, eight-five-eight, two-one-two-
two
"Hello?" Yo, what's the deal?
Why these bitches buggin out;
I mean, what's this all about?
"See it's sorta like what Tonya Harding did to Nancy
They don't want you to win no more
Soul Train they don't want you to attend no more
And I guess that's why, they ain't your friends no more
The other day, when I was comin out the grocery store
I saw the bitch Nicole in front of the salon next door"
For real? "Yup, then I choked the bitch out
At least one to the heart, tied up her hands and feet
Through her in my backseat,
then I dumped her on a dead-end street
The other two? Yeah they still linger
But don't you lift a finger, I'ma get 'em
so just pray I come home
and when we hang up, get rid of your phone"
Whoo! When Aunt Dot comes, oh brother
It's like five Bloody Mary's, one after another
Hmmp, she have you stressed, no wearin white, no
sex
And when she get vexed, you guess what happens next
Cause them other two girls, that's still on the menu
is the reason why the story is to be continued..

Chorus
