I will see you  
In some place and time  
For the light you held  
In my heart

Sugarcane and jealousy  
What a scene  
Will I burn in hell?  
Will I live to see the day?

I try to visualize  
Imagine myself  
In the same position as you

It was my decision to let you  
Know where I was going to  
I did it to wind you up

I keep no secrets from you  
Everything is out in the open  
And who I slept with last night  
It makes no difference to us

It can't be easy  
To keep your sense of self control  
I know if you were the one who was sleeping around  
I could not keep my feelings to myself  
I'd be jealous as hell

Your heart was broken  
When I walked in your world  
I fear to tread  
Where your tears dare to hide

Sugarcane and jealousy  
What a scene  
Will I burn in hell?  
Will I live to see the day?

I try to seize you  
And make it happen  
On the spur of the moment

It can't be easy to live with me

It was my decision to let you  
Know where I was going to  
I did it to wind you up

I keep no secrets from you  
Everything is out in the open  
And who I slept with last night  
It makes no difference to us
