(Hills/Zimmerman 2:59)

I've got no reason to live today  
I was born into nothing  
All you want to do is lye awake with me  
And drive ourselves crazy

I don't want to meet you underground  
Cause it won't take long to hate me  
I've been wanting just to get away get away  
And find a better place to be

You You  
You already knew that the time would come  
When I'm already sick of you  
And I, I already knew that the time would come  
When I'd finally get sick of you

All I ever do is sit around  
That's the way to be  
When you look like me  
I'm not much for fashion  
But let's try to undress our way out of this mess

Break it down  
Don't make a mistake  
When I'm down  
Get out of the way  
Enjoy your life poolside

You You  
You already knew that the time would come  
When I'm already sick of you  
And I, I already knew that the time would come  
When I'd finally get sick of you
