The waves are rollin' in and the sun is setting down  
Another little day in this sleepy little town closer to the  
edge  
Think about it all all over again hear your voice ringing  
in my head  
Remember, what you said

Please excuse me, but I just don't understand  
How can you refuse me when I need a friend  
Go ahead and abuse me 'cause I just can't get enough  
Please excuse me I'm only flesh and blood

You think that everything that glitters is gold  
It's just a one way ticket to the loss of your soul closer  
to the edge  
You believe what you want to believe  
You got your own eyes but you're too blind to see  
Remember, what I said

Please excuse me, but I just don't understand  
How can you refuse me when I need a friend  
Go ahead and abuse me 'cause I just can't get enough  
Please excuse me I'm only flesh and blood
