Everything is said and done  
When times are tough, no where to run  
We try to play a ruthless game  
It almost drove us both insane  
So now we see that time is on our side  
Come on, get in, lets go, I'll take you for a ride

This car is brand new and full of gas  
No cops around so let's drive fast  
The lights are green, no cars, no need to pass  
The top is down, the engine's strong  
The radio is playing your favorite song  
I think this might be the best ride of our life

Now the future starts today  
Forget about our yesturdays  
The road is clear so here's our chance  
To lose the past without a glance  
Feel the breeze, the wind blow through our hair  
I know this ride will be the ride beyond compare

This car is brand new and full of gas  
No cops around so let's drive fast  
The lights are green, no cars, no need to pass  
The top is down, the engine's strong  
The radio is playing your favorite song  
I think this might be the best ride of our life

So now we knew the time is right  
There might be bumps so hold on tight  
The future is bright, no end in sight

This car is brand new and full of gas  
No cops around so let's drive fast  
The lights are green, no cars, no need to pass  
The top is down, the engine's strong  
The radio is playing your favorite song  
I think this might be the best ride of our life

The best ride

The best ride of our lives

The best ride (x10 - fade)
