You ask and not remain forever
In a state of infertility
No, you ask and not remain forever
In a state of infertility

No, they sure will have to come out
One day in the big world, the big world
They sure will have to come out
One day in the big world, the big world

You ask and not remain forever
In a state of infertility
No, you ask and not remain forever
In a state of infertility

No, they sure will have to come out
One day in the big world, the big world
They sure will have to come out
One day in the big world, the big world
They sure will have to come out
One day in the big world, the big world
