J'ai perdu mon chien, reviens!
Il me refait le coup
Cours par monts et par vaux
L'air souffle le vent
Distrait par l'appétit
il oublie son propos
il oublie, il oublie
mais cette fois je le vois
Il rame quelque chose

translation
I've lost my dog
come back

La La La

I've lost my dog
come back

he's gone and done it again
running off who knows where
off where the wind blows
guided by his appetite
he's forgotten what his purpose is
he's forgotten, he's forgotten
but this time I can see him
he's bringing something back
