HAHAHAHAHA! I'm so full of ideas- and here's a good one!

into outer space with lucia pamela

the moon is the place where there's space for lucia

into outer space with lucia pamela

the moon is the place where there's place for lucia

before armstrong took his steps

she'd been there with friends

they took all instruments and

recorded on the moon

gathered variety of sound

from where the air is different

i'm so full of ideas

and here is a good one

lucia has a dream

a dream that comes in colour of

international colouring

for your entry she's waiting

into outer space with lucia pamela

the moon is the place where there's space for lucia

into outer space with lucia pamela

the moon is the place where there's space for lucia
