I'm sad to see that you are sad
I'm sad to see that you are sad
But there's nothing to be sad about
Really nothing to feel bad about

There she was standing peacefully
Sending the message through telepathy
Way beyond the speculation
Furthest away from any condition
But there's nothing to be sad about
Really nothing to feel bad about

There she was standing peacefully
Sending the message through telepathy
Way beyond the speculation
Furthest away from any condition
Here to pacify, connected to joy
Here to pacify, connected to joy
