The strange setting of our story  
Re-presented nothing but a super falling star  
The landscape was no mystery  
The idea of a mind so vain, at the point of infinity

I've seen it, I've heard it  
(The creation)  
I've seen it, I've heard it  
(The creation)

I've seen it, I've heard it  
(The creation)  
I've seen it, I've heard it  
(The creation)

The creation is in my eyes  
The creation, the lies  
The creation is in my eyes  
The creation, the lies

Whatever enters the eye well see  
Let their hand go for it, grasp it  
It is stranger than the setting of it  
It will leave them with a pounding dream

I've seen it, I've heard it  
(The creation)  
I've seen it, I've heard it  
(The creation)

I've seen it, I've heard it  
(The creation)  
I've seen it, I've heard it  
(The creation)

The creation is in my eyes  
The creation, the lies  
The creation is in my eyes  
The creation, the lies
