The ancient mystics of the human soul song
Dark side of the moon
Sun kills us in installments in the ultraviolet
stairway to heaven, I began to climb
there is no highway
I think of you and the bird is the thought luxury of words
My worlds are stranger without night and day
There the poems of insanity arise
but while I'm here, please
Love me, touch me

Chorus: you touch gently, noiselessly warm fingers
You touch velvety, bow of eyelash, don't stop
You touch kissing and breath the way you like
You touch the hair streak like a muslin the pain ask a pain

Baby, loneliness can drink to the bottom although it is difficult.
True love only God gives and understanding.
I'm looking for Him everywhere, for Him I want to live
despite condemnations.
I miss the silence deserted islands wild beaches.
My worlds are stranger without night and day
There the poems of insanity arise
but while I'm here, please
Love me, touch me

Chorus: you touch gently.....

I know that you want common dreams I'll give them to you
You do not be afraid, you do not be afraid.
Strange is beautiful constantly I say yes scandalizing bigots
for my birthday today, I'll give myself a peace sign.
Baby, loneliness can drink to the bottom although it is
Do not say anything more, you just hug you to touch me

Chorus: you touch gently.....
