When the silence embraced you did I
Leave you all alone to cry
When it happened at all the same time
It never seems right

When it's you against everything
You can't imagine
And it's me that runs to you
So I can listen, listen

It's automatic you'll bring your walls up
In spite I'm shut out, I tried
But you can't open up to find
That it's never alright

When it's you against everything
You can't imagine
And it's me that runs to you
So I can listen, listen

I'm tired of breathing for you
I'm so tired of breathing for you
I'm tired of breathing for you

It's a shame that you never think twice
If you only would realize what you're doing
You'll never have doubt
No, you'll never have doubt

When it's you against everything
You can't imagine
And it's me that runs to you
So I can listen, listen

I'm tired of breathing for you
I'm so tired of breathing for you
I'm tired of breathing for you

How did I get to be so lucky?
When all of the things I did mean nothing
Every time you needed someone
I carried you all the way

When it's you against everything
You can't imagine
And it's me that runs to you
So I can listen, listen

I'm tired of breathing for you
I'm so tired of breathing for you
I'm tired of breathing for you

I'm tired of breathing for you
I'm so tired of breathing for you
I'm tired of breathing for you
