What are we gonna do  
Now it's looking at you  
Ya gotta beat on your rival  
It's called survival  
And I don't mind  
If they see it all  
When you discover  
She's got a loaded gun

She's got a loaded gun  
And it's pointed at me  
There's nowhere to run  
She's got it pointed at me

I'm gonna hit on the town  
But I feel fenced in  
Did you forget the way  
That you came in  
And you don't care  
For my living soul  
And just remember  
She's got a loaded gun
