"ay yo hold on let me tune my guitar before I drop
these funky fresh melodies on you
You ready? 2,3,4..

Verse 1

Can a thug let you know what's going on
In my mind girl this wont be long
It something so mysterious about ya
That's why I want to keep you round and everything
about ya
You look like you were made yesterday
I see me wakin up to you everyday
But girl I'm only human
Now I'm weighin options

Chorus

I Remember being single
Girls gone wild steering wheel high
I remember being single
Eyes low on the dowlow riding slowmo
I remember being single
Going where I wanna go
Aint nothin like doing me
I remember being single
I remember being single

Verse 2

Now I gotta
I gotta get myself together im trippin
But you shoulda seen the way I was livin
Chicks in skirts in every area code
I was wilin' outta control
Girl you just don't know
I know your perfect for me
So excuse me reminiscing
But girl im only human
So im weighin options
I was gettin my grown man on doin what I wanna

Catch me in the club just sippin a corona
If I seen a dime bets believe I gotta bone her
I remember them days

Chorus

I Remember being single
Girls gone wild steerin wheel high (steering wheel
high!!)
I remember being single
Eyes low on the dowlow riding slowmo (riding
slowmoooo..!)
I remember being single
Going where I wanna go
(nothin like doing me) aint nothin like doing me
I remember being single
I remember being single (ss: ohhh ohhh oh)

"I mean it aint like I don't appreciate what I already got,
I was a wild bul' yanamean (chuckles), I mean come on
everybody can reminisce on how it use to be, but I still
love ya baby, (chuckles)

Chorus

I Remember being single (ss: I remember)
Girls gone wild steering wheel high (ss: steering
highhhh!!)
I remember being single
Eyes low (ss: eyes low) on the dowlow (ss:dowlow)
riding slowmo (ss:slowmo)
I remember being single
(ss: I was going where I wanna go aint nothin like doing
me) going where I wanna go
Aint nothin like doing me
I remember being single (ss: oh yeahhh!!)
I remember being single
(ohhhhh!, hear me out right now!)
