You gave me so much  
But today all I seem to have from you  
To bring back your smile  
Bring back our night  
Yeah bring it all back to me

So what do you think?  
Wouldn't it be good for me to know  
Who you really are?  
And wouldn't it be nice for us to get together?

Would you mind me falling in love  
Yeah, would you mind me falling in love with you?

And the rain feels so warm  
Every drop is sent to heal this body  
And remind me of your touch  
And as I close my eyes  
I feel some silence  
Feel some beauty  
And they're here to grab my trust  
Yeah

You know it feels so unreal but too real to forget it  
I don't, yeah I don't know you at all but I miss you already

So what do you think?  
Wouldn't it be good for me to know, yeah  
Who you really are?  
Not who you're trying to be  
And wouldn't it be nice for us to get together?

Would you mind me falling in love  
Yeah, would you mind me falling in love with you?
