

Dead By Gun

"Abandoned Brothers"

Visit "[Abandoned Brothers](#)" on MotoLyrics.com

I am a bomb and I'm coming down
Through the concrete I will explode
The fullmoon is shining over the houses
Do you rmemeber our abandoned brothers?

This place is old it pisses me off
From the first step taken to the dusty bones
The ghosts come out at night
They drink they fight and they are singing

Tomorrow this will be over
The TNT is loaded
Dig their way up from hell
The ghosts found their way to heaven

Dead bodies in the closet
Dark clouds are gathering around me
The cold wind whispers in my ear
Do you remember our abandoned brothers?

Open up unlock the doors
The full moon is here I wanna watch them go
The ghosts come out at night
They drink they fight and their singing

Tomorrow this will be over
The TNT is loaded
Dig their way up from hell
The ghosts found their way to heaven

Have you ever seen them?
Hey do you remember their names?
Hey well they come with the cold wind...

Tomorrow this will be over
The TNT is loaded
Dig their way up from hell
The ghosts found their way to heaven
