She's got a knife, she's got a motive  
She has a friend who knows 'bout murder  
Like a drug, like a deepcut  
She drives you crazy with her blue eyes  
A broken bottle, a broken song  
Red wine and bloodstains over my floor  
Out'a regrets and out'a control  
Her blade cuts through me and rips my throat

Away away away she goes  
She shines like a diamond  
As she's lost in the crowd  
My weak heartbeat fades out  
As the poison takes over my mind and soul

A little piece, a piece of my heart yeah  
A silent minute for the pain I've caused  
You might survive the storm  
But you still don't wanna wake up in her arms

Black candles and voodoo dolls  
The lights go out as she walks by yeah  
When you're tied, when you're buried alive  
Like hounddogs we shatter and disappear in the dark  
oh yeah

Away away away she goes  
She shines like a diamond  
As she's lost in the crowd  
My weak heartbeat fades out  
As the poison takes over my mind and soul
