Right on, right now, let's go out and have some fun
Cuz the streets are burning, the streets are calling
The flames are rising and the landmarks are falling
Down to total destruction, this town has lost it's
patience
So take a look around now, this is my playground

It goes on and on
And this city is running fuckin' wild, oh yeah
Leave this city rather than stagger through hell
I'll be the last one to leave

Right on, right now
Let's go out and crush some skulls
Cuz mu guns are loaded, my blood is boiling
On broken grass and landmines I'm walking

Hey this corrupted city
Oi these walls are breaking
In tears we drown
So take your hand off my hometown

It goes on and on
And this city is running fuckin' wild, oh yeah
Leave this city rather than stagger through hell
I'll be the last one to leave
