[Dre]

All the money in the world couldnt change me
No diamond rings or them fancy cars
Cause my niggas in the hood woulda let me
Holler this because.....
(I'm from the ghetto) I'm from the ghetto
(I'm from the pojects) I'm from the projects
All over the world and every hood they know
I'm from the ghetto and thats fo sho'
(I'm from the ghetto) I'm from the ghetto
(I'm from the projects) I'm from the projects
All over the world and every hood they know
I'm from the ghetto and thats fo sho'

[The Game]

Ayo Cali
Walk with me
Yeah thats what got me here
The chucks the khaki suits
All the swap meet years
The six dollar socks the five dollar rocks
Uncle Greg rest in peace he taught me how to chop
Thats why I love the hood and everything we got
From the ice cream trucks to the fourty ounce tops
All white Air Force Ones to fake Jacob watch
A few reasons why I drive the Bently hard top
Use it in my songs cause I live it on the block
Tattoo it on my face let the whole world watch
I'm that type of nigga yall made my city bigger dawg
Turn the TV off got tired of watchin Jigga boss
So we told our mom's we was lookin for jobs
When we was really in the record store lookin for Nas
Project of the ghetto, Ghetto and the project

From compton to being Dre's number one prospect
SO.....

[Dre]

All the money in the world couldnt change me
No diamond rings or them fancy cars
Cause my niggas in the hood woulda let me
Holler this because.....

[Jadakiss]

AAHHAA!!!

Yeah ugh

They know

Yeah ugh

Aint no help there just food stamps

Weight checks and welfare

Every man gone for self there

Still might need to borrow your medicade card for
health care

Yeah if you never got knocked then you made it

Everybody know eachother if not they realated

You can get shot or get bladed

Theres dudes that got jobs now that had blocks in the
eighties

Six months five years for you just to cop out

Ninth or tenth grade is usually when niggas drop out

Fights break out when you wired and start joking

Alot of OG's retired and started smokin

House party games of spade sweet kool-aid

Loud music all night till the boys in blue raid

So therefore I could never be too paid

I know where I'm going and where I'm from will get you
laid

[Trick Daddy]

Haha

Tell me this how come
Black folks get a little doe
And forget where they come from
Man we used to have good times
But since you moved on up you aint cool with us
We still support you tho we dont see you much
You aint the first fool its cool with us
But why you living out your idols dreams
Remember how for you came and help you keep those
thangs
Now its cool that your adress changed
But I'm tryna holla at my dog and the number aint the
same
I guess new homies came with his fame
But see true homies will stay the same
Through all the up's and down's in your career
A couple wives few kids scattered here
And when you dead or broke without a deal
All the groupies cleared... The ghetto will still be here

[Dre]
