Cruisin' down the streets at midnight
Music bop-in', ladies rockin'
Dudes and dudettes all over town

Saw this bird walkin' down the pavement
Traffic stopin', fellas dropin'
She just kept walkin' straight on by

And I realized she's all I'm missin'
I pulled my wheels aside
And with a smile
I rolled my window down

Baby doll
You need some rock & roll
You need someone to hold you
On a cold and lone some night
Baby doll-doll-doll
Rock and roll-roll-roll over here
Now bring it, bring it over here
Baby doll

Don't be cruel, don't leave me hangin'
On a wire, my heart's on fire
Don't make me beg now pretty please

Streets look good when you're in the front seat
Motor runnin', bird is hummin'
Right here beside at the wheel

With her by my side nothing's missing
I turn my wheels ahead
And with a smile I press my right foot down

Baby doll
You need some rock & roll

You need someone to hold you
On a cold and lone some night
Baby doll-doll-doll
Rock and roll-roll-roll over here
Now bring it, bring it over here
Baby doll

Baby my ride is gonna take you high
Straight down Rocky Road
And then we'll hit the sky
Tonight, oh yes tonight
Gonna steer us steady down Lovers Lane
Up to Seventh Heaven
And then back again
Up to Seventh Heaven and then back again
Tonight

Oh-ba-by doll-doll-doll
Rock and roll-roll-roll
Over here now, bring it, bring it over here

Baby doll
You need some rock & roll
You need someone to hold you
On a cold and lone some night
Baby doll-doll-doll
Rock and roll-roll-roll over here
Now bring it, bring it over here
Baby doll

My baby doll
My baby doll
My baby doll
