1st verse

I've company until the end
And some love to send
Go with me for the same way
And I Can't let you get away
You make me feel so strange
Like eats a bittersweet orange
Don't care anything
As long as you give me some thing
Like tenderness
'cause I can't live in loneliness

Chorus

Say you anything, everything
'cause you know all right how I feel
But please don't hurt me
Be loyal like my greatest love that I never give

2nd verse

The heaven comes to heart
When I look in your eyes
Yuo're pure art
If I want you say yes
Painful time no more no cry
My heart isn't unbreakable
Get out Mr.Treachery
To make it able
Love you forever and ever
Like never

Chorus

Rap

Go with T now E yeah N say D tell me E It's the R
Now now let's go to groove
All night with you baby
Fever causes me first time I see you
I know that you're my girl
Destiny makes together friends
And we are two of they
Although this is still a mistery
Don't care it

Sing it L after O my V again E

Chorus

Final spoken

My sweety
Your voice's my tweety
My favorite song
All night long
Don't leave me alone
