All that I want is for the apple
Not to fall far from the tree
Sunny and Cass, you float like butterflies
The magic of our saucepan lids

I'll tell you everything that I know
But the child's father to the man
So start to begin free like the wind
Begin my kin start to begin
The apple don't fall far from the tree

Love, love, love, love
Love, love, love, love
Love, love, love, love
Love, love, love, love

I'll tell you everything that I know
But the child's father to the man
So start to begin free like the wind
Begin my kin start to begin
The apple don't fall far from the tree

We're melodies, we're speaking tongues
We're sea shanties on the school run, we're fabled law
It's easy come and easy go not yet that old
You know what's right before you're told
Reveal yourself and avoid the cost

I'll tell you everything that I know
But the child's father to the man
So start to begin free like the wind
Begin my kin start to begin
The apple don't fall far from the tree
