

Steve Earle "Here I Am"

Visit "[Here I Am](#)" on MotoLyrics.com

Here I am on my way, down another road I've have
paved
With every good intention I've saved and hearts that I
broke
As for me I got scars for every mile traveled so far
And some blood on my hands, here I am

One two three four

With a song in my heart and an attitude from the start
I took everybody apart to see how they work
I got friends that I owe, I ain't namin' names
'Cause they know where they stand, here I am

Here I am, here I am, here I am

If I went back where I've been
And I knew what I know now then
Well, I'd probably do it again 'cause I'm just a man
At the end of the day I ain't got nothing to say

Here I am, here I am, here I am
Here I am, here I am, here I am
