

Steve Earle "If You Need a Fool"

Visit "[If You Need a Fool](#)" on MotoLyrics.com

Darlin', I could tell we're through that leavin' look's all
over you
I'll be waitin' here no matter what you do, call me if you
need a fool
Go and find another guy and if he don't believe your
lies
You know, there's someone who'll swear every word is
true
Call me if you need a fool

They're just not makin' fools the way that they used to
They don't come back for more the way I always do
So if you ever change your mind, I'm not very hard to
find
You can find me in the phone book under Blue
Call me if you need a fool

They're just not makin' fools the way that they used to
They don't come back for more the way I always do
So if you ever change your mind, I'm not very hard to
find
You can find me in the phone book under Blue
Call me if you need a fool, call me if you need a fool
