Feelings of desire  
Crumble on my broken watch  
Prisoners of my freedom  
Justify my train of thought  
They follow me to my island  
Under trees they sit and hide  
They blind me from the wonders  
That surround and save my life  
So come on now and...  
I can wait for a long long time  
But I...  
Where's this place that I need to go  
In the arms of a dying angel  
What if my sweet heaven's underground  
Faces of disaster  
Scream a song while I'm alone  
They tell me to surrender  
Tell me to live on my own  
They say love's not here to save you  
It's not real it's in your head  
But without love who's your savior  
Lying beside you in your bed  
So come on now and...  
I can wait for a long long time  
But I...  
Where's this place that I need to go  
In the arms of a dying angel  
What if my sweet heaven's underground  
So come on now and...  
Lead the way  
Pave the way  
Surrender to the unknown  
It will lead you to your heart  
And I say  
Lead the way  
Don't be afraid  
Believe in your delusions  
Baby you will never live here on your own  
I'll see you come back home  
I'll see you come back home  
I'll see you come back home
