Im a car that you would love to have but you wouldn't  
want to drive  
Talk about how Im all fixed up but I stay covered from  
the light  
And all I wanted Ive had it in my hands  
But I missed my chance...

Yeah, you can live in the city where it catches your eye  
But you cant be sure it'll be a good ride  
And you hate giving up after how hard you try  
So you just make peace and kiss it goodbye

Im a concrete floor; sometimes I cant be rested on  
Dont you give me your heart I cant even be trusted with  
my own  
And all you wanted was a story you could tell  
But I kept them to myself

Yeah, you can live in the city where it catches your eye  
but you cant be sure it'll be a good life  
and you hate giving up after how hard you try  
so you just make peace and kiss it goodbye
