Don't act like you can't act  
I always think you do it  
You better learn to shake hands  
Treat me like your mother

Don't act like you can't act  
Stand up like a man  
You better learn to shake hands  
Treat me like your mother

You came up, too late  
You came up, too late now  
You came up, too late  
To do a thing

Come on look me in the eye  
You wanna try to tell a lie  
I'll bet you can't and you know why?  
I'm just like your mother

Look me in the eye now  
You wanna try to tell a lie  
You can't and you know why?  
I'm just like your mother

You came up, too late  
You came up, too late now  
You came up, too late  
Play dumb, play dead, play straight

Who's got it figured out?  
Play dumb, play dead, play straight  
Who's got it figured out? Play straight  
Time to manipulate

M-A-N-I-P-U-late  
M-A-N-I-P-U-late  
M-A-N-I-P-U-late  
M-A-N-I-P-U-late  
Am I too,  
Am I late?

Am I too,  
Am I late?  
Am I, am I, am I, am I,  
Am I too  
Late?

Who's got it figured out  
Left right, left right got it figured out  
Who'd got it figured out  
Play straight

Stand up like a man  
You better learn to shake hands  
Look me in the eye now  
Treat me like your mother

Come on, look me in the eye  
You wanna try to tell a lie?  
You can't and you know why?  
I'm just like your mother

Play dumb, play dead  
Tryin' to manipulate

You blink when you breathe  
and you breathe when you lie  
You blink when you lie  
You blink when you breathe  
and you breathe when you lie  
You blink when you lie  
You blink when you breathe  
and you breathe when you lie  
You blink when you lie

Who's got it figured out  
Left right, left right got it figured out  
Who's got it figured out, play straight  
Tryin to manipulate  
Who's got it figured out  
(Left, left right) left right left right  
Who's got it figured out, play straight  
Tryin' to manipulate

You blink when you breathe  
and you breathe when you lie  
You blink when you lie  
Who's got it figured out, play straight
