

Steve Forbert "Baby, Don't"

Visit "[Baby, Don't](#)" on MotoLyrics.com

I got mad, wasn't cool
Had a grip on myself but I lasted like one big boot
I can make it, if I must
If I only I ain't got your love in my lifetime, it all goes
bust

Baby, please, please, please
Baby, please, please, please
Baby, please, please, please
And baby don't, yeah, baby don't

I've been down, pressure drop
Got a lot on my head lately, baby, my mind won't stop
There you were, looking sly
Hey, I felt like you wanted to lay with that slick, smart
guy

Baby, please, please, please
Baby, please, please, please
Baby, please, please, please
And baby don't, hey, baby don't

Take a look at the man with a heart that's been through
Take a look at the job I keep working for you
Just to bring you the things that you tell me you want
Turn around, baby, talk

I give her time, I come through
I can deal with the problems I got but I still got you
See the sun sinking low
Hey, that just tells my poor heart sings when you turn to
go

Baby, please, please, please
Baby, please, please, please
Baby, please, please, please
And baby, don't, girl, baby don't
Baby don't, baby don't, baby don't
Baby don't, baby don't, baby don't
