She, got my number and she - chasing me so far  
Me, out of slumber, I can do with no faut-pas  
Mixed-up and bleeding, I's high on beleiving  
It's all surreal  
Slip on a T-shirt, me - gotta look so cool  
Me Biba braces are making me so cruel  
She, dinosaur and me, her He-whore  
Sleep Muriel

Chorus: Oh! See her move so right in her big baggy  
strides  
And her golden top made of satin  
See her wriggle her hips, take the almighty piss  
This is Muriel the Actor who's rapping, ping - ping

She, dresscd to kill and Me, looking so jolly  
I know she will 'cos she's a lady of folly  
She's seventeen, oh! You know what I mean  
She's a circus girl  
Across the ring on a gay light fantastic  
For anything, oh! She'll bust her elastic  
She, so inviting, me - given up fighting  
I'm all in a whirl

Chorus:

A superman in a comical moment  
Jump through the fan, you're the inhuman showman  
Oh! hear the roar of the crowd call for more  
So gullible..br> Me, took ma band on the road for a  
liftÃfÃ°up  
She took my hand and she said "never give up"  
Oh schizophrenia, I know you, I been yer  
So subtle....la la la

Chorus:
