"Cipher"

Visit "[Cipher](#)" on MotoLyrics.com

My words are dedicated to the one I love
It's been so long since our lips have touched
Whisper young lovers, whisper tonight

All my letters will be censored
Read between each secret sentence
Hand written for my dearest
Cipher love

Careless talk can cost lives
But our minds will connect with our thoughts disguised
Whisper sweet nothings, whisper, tonight

All my letters will be censored
Read between each secret sentence
Hand written for my dearest
Cipher love
