Takes a lot of guts for you to come
Moving to the front, a getaway
Yes I know you're trying on me
Takes a lot of lies for you to make
Step into the side or come my way
Cause I know you're trying on me

Do you recognize me girl?
I phone you every night girl
Don't recognize me girl
I wanna fold you
Don't come around my way,
I wanna fold you
So come closer girl, yeah, oh
Just come

Takes a lot of guts for you to come
Moving to the front, a getaway
Yes I know you're trying on me
Takes a lot of lies for you to make
Step into the side or come my way
Cause I know you're trying on me
Cause I know you're trying on me.
