Crawling from their box Limps across the grave
Eating all in sight they will fuck up your day
Eating on the flesh you will not survive
You'll join the motherfuckers right after you die
Eating all the living still they want some more
I boarded up the windows put the dresser on the door
I'm running out of bullets I start to shit my pants
Got to get my car its my only chance

Zombie Assault - Coming after me
Zombie Assault - Its me they want to eat
Zombie Assault - Got me on the run
Zombie Assault - The end has just begun

Nuclear Science brought the dead back
They circle my house for the zombie attack
I got to make my way I got to make my run
Torch in one hand the other has a gun
SHOOT EM IN THE HEAD - SHOOT EM IN THE HEAD
Blow their brains out fill it full of lead
One more bullet I have to make my way
To get to my car I set the rest ablaze

Zombie Assault - They're here to seal my fate
Zombie Assault - I have to escape
Zombie Assault - Nowhere to hide
Zombie Assault - I'm running out of time

I jump into my car a zombie breaks the glass
Ignition in transition I hit the fucking gas
I cannot get away thousands more appear
Infecting me with horror makes it hard to steer
One hundred miles an hour I crush all in my path
Lose control of the wheel in the trees I will crash
I fight off a zombie who climbed into the wreck

Before I killed the bitch the motherfucker bit my neck

Zombie Assault - I crawl out on the road

Zombie Assault - My body's turning cold

Zombie Assault - I cannot survive

Zombie Assault - I'm gonna fucking die

Zombie Assault - infecting my blood stream

Zombie Assault - My skin is turning green

Zombie Assault - I feel so much pain

AGGGGGHHHHHH....Brains!
