Isadore columbine woke up in the dunes  
How she came to be there no one ever knew,  
shakedown  
They took him in for questioning, they didn't get a  
thing  
They said she shouldn't try to impersonate the king,  
shakedown  
But the bugger'd done his damage the american  
dream  
Voodoo on the covers of all the magazines, shakedown  
He took her to his car, and showered her with praise  
Married to an astronaut she disappeared for days,  
shakedown  
Everybody cried, said they'd never seen a star  
Shine as bright at columbine in a burning car,  
shakedown
