# Andy Gibb
# "Falling In Love With You"

I got your love on me baby
Leavin' me was yesterday
Oh, I got to be the one
You won't ever see me running away

Ah, when the day is done and I think of you
I get a feeling, I just can't control

Ah, falling in love with you baby
When I really should be sayin' goodbye
And the glow of you livin' inside me
Got me knowin' we can never die
Falling in love with you baby
Is like a dream without an end

Shine all your love on me baby
Lead me to your ecstasy
In the heat of the night you can play with me baby
Take me where you want me to be

Ah, when the night is done and I think of you
I get a feeling way down in my soul

Ah, falling in love with you baby
When I really should be sayin' goodbye
And the glow of you livin' inside me
Got me knowin' we can never die
Falling in love with you baby
Is like a dream without an end

How can we go wrong on a night like this
When we lie in the heart of your tenderness
Oh don't let go my darlin'

'Cause I'm fallin' in love with you baby
When I really should be sayin' goodbye
And the glow of you livin' inside me
Got me knowin' we can never die
Falling in love with you baby
Is like a dream without an end

Falling in love with you baby

When I really should be sayin' goodbye
And the glow of you livin' inside me
Got me knowin' we can never die
Falling in love with you baby
Is like a dream without an end
