You were there then you were gone  
Along the levees I ran up and down  
I ran and ran until I saw  
The fire in you eyes

Not one bullet, but three  
Took away your life from me  
Were we the ones  
For whom you died in vain

I will spill their wicked blood, and  
Drag their foul hearts through the mud  
Vengeance brother in your name  
Vengeance not in vain

He faded before my eyes, so I  
Cursed and swore & roared and cried  
So damn me God till Judgement Day  
Where you will face my wrath

Blood will follow blood, limb with limb  
Oh will the rains ever come  
To wash away the burdens  
That hang from us like stones?

The tears aren't enough to calm  
The spirits of the dead that roam  
Will you who haunt our fair town  
Find your peace at last

Let your guns sing their songs  
Let your bullets right old wrongs  
Ils laissent les armes a feux chanter  
Tuant la vie sans rien trouver

Hear hear the blood song  
Through battles that are lost and won  
Through the smoke and fire  
Can you see the bullets run?

Dark and evil is the day

When they find you dead like stone  
Could you see their deadly kiss  
Through the fire in your eyes?

Let your guns sing their songs  
Let your bullets right old wrongs  
Ils laissent les armes a feux chanter  
Tuant la vie sans rien trouver
