"Heal Your Heart"

Visit "[Heal Your Heart](#)" on MotoLyrics.com

I know you took too long
Deep inside you baby something wrong
You got to get down, to the truth
I know it may hurt you mama but you got to do it

In the end it will heal your heart
Yes it will
In the end it will heal your heart
Yes it will

I gave you my love baby, you just used it
Gave you direction mama but you just lose it
People kept telling me that you were just crazy
I won't buy their talking baby, I know you just lazy

In the end it will waste your heart
Yes it will
In the end it will waste your heart

I was worried about your tomorrow
I was worried about all your sorrow

I know you took too long
Deep inside you mama there's something wrong
You got to get down to the truth
I know I may hurt you baby but you got to do it

In the end it will heal your heart
Yes it will
In the end it will heal your heart
Yes it will
Yes it will, yes it will, yes it will, yes it will
