Painter would you paint my portrait  
Paint me wearing the finest clothes in town  
Make me look like I'm somebody  
Make me a little younger than I am now

Will you please remember me  
Remember me this way  
Will you please remember me  
I want to be remembered this way

Paint me with a happy family  
Kids and dogs and babies all around  
Paint us on the bank of a river  
Put the horses and a house in the background

Will you please remember me  
Remember me this way  
Will you please remember me  
I want to be remembered this way

Make it a work of art  
A real sight to see  
Make it a work of art  
A real masterpiece  
Don't forget my dear companion  
Put someone who loves me by my side

Will you please remember me  
Remember me this way  
Will you please remember me  
I want to be remembered this way

Painter would you paint my portrait  
I want to be remembered this way
