You don't have to say a word
to speak to me
You don't have to know what hurts
to heal me
Maybe that's the thing
Maybe that's the thing

I don't have to move my feet
to dance with you
You don't have to look to see
that my love is true
Maybe that's the thing
Maybe that's the thing

Easy like a day goes by, you and I
Getting on always like a lullaby
Like a steady rain when the ground is dry
Every time we touch, that's the thing about us

I don't need no crystal ball
to keep my faith
And I think we're both better off
with a little mystery
Maybe that's the thing
Maybe that's the thing

I don't have to hold your hand
to feel you there
We don't really have a plan
but I'm not scared
Maybe that's the thing
Maybe that's the thing

Easy like a day goes by, you and I
Getting on always like a lullaby
Like a steady rain when the ground is dry
Every time we touch, that's the thing about us

That's the thing about us
That's the thing, that's the thing about us
