### "Three O'Clock In The Morning"

The chimes are ringing out three o'clock  
The clocks are swinging out tick tick tock  
The town is starting to rock

It's three o'clock in the morning  
We danced the whole night through  
And daylight will soon be dawning  
Just one more waltz with you  
That melody is so entrancing  
Seems to made for us too  
I could just keep on right dancing forever, dear, with  
you

It's three o'clock in the morning  
We should be sleeping  
But we're dancing the whole night through  
Soon the town will come  
Daylights coming  
Everybody's yawning  
Early in the morning  
Just one more dance with you

Three chimes in the early bright  
Seems it was meant for us, oh us  
I could keep on dancing, dear, forever with you

Oh we danced the whole night through  
And the daylight will soon be dawning, oh dawning  
Just one more waltz with you

Oh this melody is so entrancing, it was just made for us  
I could just keep on dancing just forever, forever with  
you my dear  
Just dancing, dancing forever with you  
There goes the three clock chime  
Beats in time with my heart  
It's three o'clock, three o'clock, in the morning  
Seems to made just for us too  
I could just keep on right dancing dear  
Just forever, darling, just forever with you
