Baby looks good, ridin' around
In a Chevy drop top, all over town.
Its got four bald tires and the muffler drags the
ground.
She don't care as long as the top stays down.

She says "Where you wanna go"
I say "Baby take it slow"
She says "It don't matter what you drive,
just put that top down and let it ride"
'Neath the midnight stars in the Texas Sky.

My grandaddy was a Texas ranchhand.
Worked the cattle and plowed the land.
Started work when he was just a kid,
you know the times were tough to do what he did.

He says "Son take it slow,
No matter where you wanna go,
'Cause at night when he was lookin for some piece of
mind
He would saddle that pony and ride down the road
"Neath the midnight stars in the Texas Sky.

So if you're feelin down maybe feelin kinda low,
Call me up darlin', just let me know.
We can ride all night, we'll head to Luchenbach
I'll drive the Chevy if you bring your pop tops.

We can take it slow,
No matter where you wanna go
If you ever need a little piece of mind
Just drop that top girl and let it ride
'Neath the midnight stars in the Texas Sky.
The midnight stars in the Texas Sky.
