

## Dear And Departed, The "Run Away"

I know what follows, beneath the fading lights around  
me,  
Could someone just hold me? Before they desolate so  
lonely

I see the cries for sympathy  
But the pain was never more than this  
She keeps it in her kiss  
And now (and now) I see wind has changed,  
Set sail and drift away to the place where  
We surrendered...

Run away, run away, this will be the same  
Run away and leave me with forever

Look who's at the door, a face ive seen before.  
She's still on the run.  
Try to dissolve the fantasy, be what you used to be  
and let the stranger fade away.....away.

With me tonight, see the morning light

Run away, run away, this will be the same  
Run away and leave me with forever  
Run away from the make believe that keeps me from  
you.  
Run away, this will be the same.
